

Caring for your new Shower or Tub

Care and cleaning instructions for acrylic tub/shower liners, replacement tubs/showers and surround systems.

1. Dampen a soft cloth with cleaner.
 2. Wipe walls and tub.
 3. Rinse well with clean warm water.
 4. Wipe out excessive moisture or cleaners that are sitting around the drain area.
- PLEASE USE: Kaboom, Simply Orange/Green, Orange Blast, Glass Plus, 409, Fantastik, Scrub Free, or Vinegar & Water.
 - DO SCRUB: With a sponge safe for non-stick cookware or use a soft brush on the slip resistant bottom.
 - DO REPAIR: Dripping or leaky faucets as soon as possible.

DON'T USE Anything that is not safe for Acrylic! Any product that is "left on" the surface, such as Shower Fresh or Fresh Shower. Aerosol propellants such as Scrubbing Bubbles, Ammonia D, Acetone, Scouring Pads, Power or Crystal Drain Cleaners. Do not use bath mats or decals on the bottom of the tub.

Note: THESE PRODUCTS LISTED ABOVE WILL VOID YOUR WARRANTY!

Just because they sell it in the store doesn't mean it can be used on all surfaces.

- DO CALL: Your installer if you accidentally scratch or chip the finish, more than likely it can be repaired. Be careful when working around the tub with hammers, screwdrivers, pliers, cans, bottles, etc. If you drop them on the surface you may cause a scratch or chip.
- DO USE: Common sense, the tub was designed for taking baths and showers not as a wash tub for glass aquariums, car parts, rocks, etc...
- DO WASH: New shower curtains in vinegar and water to set dye.
- **DO NOT HANG TOWELS OR HEAVY ITEMS ON THE CRESCENT SHOWER ROD.**

If you have any questions regarding care of your products, please feel free to contact us.
